

## Title

A. First<sup>1</sup>, B. Second<sup>2</sup> and C. Third<sup>2</sup>

<sup>1</sup>Department/School of ..., University of ..., City, Country

<sup>2</sup>Department/School of ..., University of ..., City, Country

Corresponding author email: [email@tuc.gr](mailto:email@tuc.gr)

**keywords:** one; two; three; four; five.

## Introduction

The abstract should not exceed two pages in total. Use A4 page set-up and make top-bottom margins 1.8 cm and left-right margins 2.0. Use 11 pt Calibri font, except for the title which should be in 12 pt bold.

Centre the title, the authors' names, the addresses and contact email address.

## Materials and methods

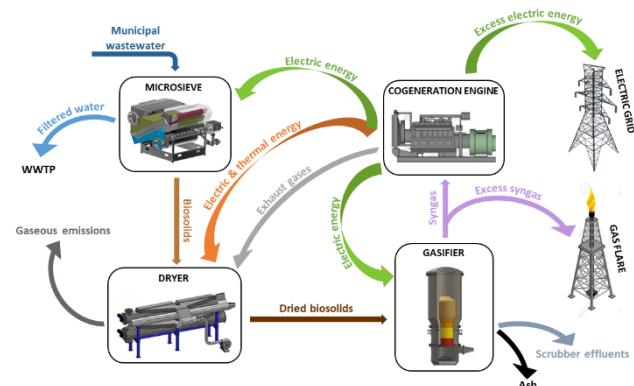

Justify the body of the text both left and right. Do not use page numbers. Use clear English to write your abstract.

## Results and discussion

Ensure that figures, tables and charts have a caption and that they are numbered consecutively. Section headings and equations can be used.

**Table 1. Experimental results**

Type of fuel	Higher Heating Value (HHV, MJ/kg)
Lignite	13
Biodiesel	37.2

**Figure 1. Mass and energy flows of biosolids microsieving-gasification pilot plant.**

## Conclusions

You may include a few important references if desired and acknowledgement to funding sources.

**Acknowledgements:** This study is supported by the Green Fund and the LIFE project (EC): "New concept for energy self-sustainable wastewater treatment process and biosolids management (LIFE B2E4sustainable-WWTP)", LIFE16 ENV/GR/000298.
